7. Declaration of Comparability of Information in Financial Statements

Effective from January 1, 2026, the Company has adopted Circular No. 99/2025/TT-BTC issued by the Ministry of Finance on October 27, 2025 (“Circular 99”), which provides guidance on the accounting regime for enterprises. This Circular replaces Circular No. 200/2014/TT-BTC dated December 22, 2014. Due to changes in the preparation and presentation of financial statements under Circular 99 compared to Circular 200, comparative figures in the current financial statements have been restated in accordance with the provisions of Circular 99..

II. ACCOUNTING PERIOD AND CURRENCY USED**1. Accounting Period**

The Company's fiscal year begins on January 1 and ends on December 31 of each year.

2. Currency Used in Accounting

The currency used for accounting records is the Vietnamese Dong (VND).

III. APPLIED ACCOUNTING STANDARDS AND REGULATIONS**1. Applied Accounting Regulations**

The Company applies the enterprise accounting regulations under Circular No. 99/2025/TT-BTC dated October 27, 2025, issued by the Ministry of Finance.

2. Compliance Declaration

The Company complies with Vietnam's Accounting Standards and related regulations. Financial statements are prepared in strict accordance with each standard, related circulars, and the currently applied accounting regulations.

IV. APPLIED ACCOUNTING POLICIES**1. Foreign Exchange Rates Used in Accounting**

Transactions arising in currencies other than the accounting currency are translated using either the actual transaction exchange rates or the weighted average book exchange rate, as follows:

- Actual transaction exchange rate at the transaction date is the average transfer buying and selling rate of the commercial bank where the Company regularly conducts transactions. This rate may be determined daily, weekly, or monthly based on the average of daily transfer buying and selling rates quoted by the bank.

- Weighted average book exchange rate is determined based on the weighted average between the translated value in the accounting currency using actual transaction exchange rates for: Debit side of cash, receivables, and other assets; or Credit side of payables divided by the foreign currency balance at the beginning of the period plus increases during the period for each item.

This rate may be determined at the end of the period or at each settlement date.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)

At the end of the fiscal year, monetary items denominated in foreign currencies, including assets (cash, receivables, and other monetary assets) and liabilities (borrowings, payables, and other obligations), are translated at the average transfer buying and selling exchange rates of the commercial bank where the Company regularly conducts transactions at the reporting date.

All realized foreign exchange differences arising during the year and unrealized exchange differences upon year-end revaluation are recognized in the income statement for the financial year.

2. Principles for Recognition of Cash and Cash Equivalents

Cash includes cash on hand, bank deposits, and cash in transit.

Cash equivalents are short-term investments (not exceeding three months) that are readily convertible into cash and carry an insignificant risk of change in value from the acquisition date to the reporting date..

3. Principles for Recognition of Trade and Other Receivables

Trade receivables, advances to suppliers, and other receivables at the reporting date are classified as follows:

- Receivables with a collection or settlement period of less than one year (or within one business cycle) are classified as short-term assets.
- Receivables with a collection or settlement period of more than one year (or exceeding one business cycle) are classified as long-term assets.

4. Principles for Recognition of Inventories

- Inventories are measured at cost. If the net realizable value is lower than the cost, inventories are measured at their net realizable value.

- The cost of inventory includes purchase costs, processing costs, and other direct costs incurred to bring the inventory to its current location and condition.

- Inventory valuation is based on the weighted average cost method.

- Inventories are accounted for using the perpetual inventory system.

- A provision for inventory devaluation is established at the reporting date for the excess of the original cost over the net realizable value.

5. Principles for Recognition of Investments

- Trading securities: These are securities held for trading purposes. They are recognized from the date the Company gains ownership and are initially measured at fair value, including transaction costs directly related to the purchase.

- Investments in subsidiaries and associates are accounted for using the cost method. Dividends earned post-investment are recognized in the income statement, while other distributions are recorded as a reduction in the cost of the investment.

- Investments in other entities: These represent equity instruments where the Company does not have control, joint control, or significant influence.

Investments at the reporting date are classified as follows:

- Investments with a maturity or collection period not exceeding three months are classified as "cash equivalents."

- Investments with a maturity of less than one year or within one business cycle are classified as short-term assets.

- Investments with a maturity of more than one year or exceeding one business cycle are classified as long-term assets.

A provision for devaluation of investments is established at year-end for the excess of the cost over the market value at the provision date.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)**6. Principles for Recognition and Depreciation of Fixed Assets**

Tangible and intangible fixed assets are recognized at cost. During usage, they are recorded at original cost, accumulated depreciation, and net book value.

Depreciation is calculated using the straight-line method over the useful lives as guided by Circular 45/2013/TT-BTC:

- Buildings and structures	05 – 25 years
- Machinery and equipment	06 – 15 years
- Vehicles	06 – 10 years
- Administrative tools	03 – 08 years
- Other fixed assets	03 – 05 years
- Land use rights	577 months
- Software	03 – 05 years

7. Principles for Recognition and Allocation of Prepaid Expenses

- Short-term prepaid expenses related to the current fiscal year are recorded as short-term assets and charged to the income statement within the same fiscal year.

- Long-term prepaid expenses are allocated systematically and reasonably to each fiscal period using the straight-line method.

Long-term prepaid expenses include goodwill from equitization, land lease payments, tools awaiting allocation, and other long-term prepaid expenses.

Prepaid land lease payments are amortized straight-line over the lease term of 577 months.

8. Principles for Recognition of Trade and Other Payables

Trade and other payables at the reporting date are classified as follows:

- Payables with a settlement period of less than one year or within one business cycle are classified as short-term liabilities.

- Payables with a settlement period exceeding one year or one business cycle are classified as long-term liabilities.

9. Principles for Recognition of Accrued Expenses

Accrued expenses represent actual costs that have not yet occurred but are recognized to ensure that when the actual costs arise, there is no significant fluctuation in expenses. Any differences between accrued and actual costs are adjusted in the accounting period.

10. Principles for Borrowing Costs

Borrowing costs are expensed when incurred, except for costs directly attributable to the construction or production of qualifying assets, which are capitalized as part of the asset's cost under Vietnam Accounting Standard (VAS) No. 16 – "Borrowing Costs."

Capitalized borrowing costs include interest, bond discounts or premiums, and other costs related to securing the borrowing.

11. Principles for Recognition of Owner's Equity

Owner's contributed capital is recorded at the actual amount contributed.

Undistributed post-tax profits represent the profits from business activities after adjustments for retrospective changes in accounting policies and corrections of material errors from prior years..

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED)**12. Principles and Methods for Revenue Recognition**

Revenue from the sale of goods is recognized when all the following conditions are met:

- The significant risks and rewards of ownership have been transferred to the buyer.
- The Company no longer retains control over the goods.
- Revenue is reliably measurable.
- It is probable that economic benefits will flow to the Company.
- Costs incurred can be reliably measured.

Revenue from services is recognized when the outcome can be reliably estimated. For multi-period services, revenue is recognized based on the proportion of work completed as of the reporting date.

Financial income (e.g., interest, royalties, dividends) is recognized when:

- It is probable that economic benefits will flow to the Company.
- The revenue amount can be reliably measured.

Dividends and profits are recognized when the right to receive payment is established.

13. Principles for Recognition of Cost of Sales

The cost of goods sold reflects the value of products, goods, and services sold during the period. The provision for inventory devaluation is recognized in cost of goods sold based on the quantity of inventories and the excess of cost over net realizable value where the latter is lower than the former.

In determining the volume of inventories subject to write-down and requiring a provision, the Company excludes inventories that have been committed under sales contracts (with net realizable value not lower than their carrying amount) but have not yet been delivered to customers, provided there is sufficient evidence that customers will not cancel the contracts

14. Principles for Recognition of Financial Expenses

Financial expenses include:

- Costs or losses related to financial investments.
- Borrowing costs.
- Losses from foreign exchange fluctuations.
- Provisions for devaluation of investment securities.

These are recorded on a gross basis without offsetting against financial income

15. Principles for Selling and Administrative Expenses

- Selling expenses include costs directly incurred in selling goods and services, such as advertising, commissions, warranty, and transportation costs.
- Administrative expenses include general management costs, such as salaries for management staff, insurance, office supplies, and other administrative costs

16. Principles for Corporate Income Tax (CIT)

Current CIT is calculated based on taxable income and the applicable CIT rate for the year.

Deferred CIT is determined based on temporary differences and the applicable tax rate.
